WORLD FEDERATION OF ENGINEERING ORGANIZATIONS

WFEO / FMOI

SYSTEMS WORKFORCE SUMMIT

27–28 October 2026 | Oude Kerk, Delft, The Netherlands

WFEO: Connecting Global Engineering for the Workforce of Tomorrow

Dr. Ania Lopez

Executive Vice-President

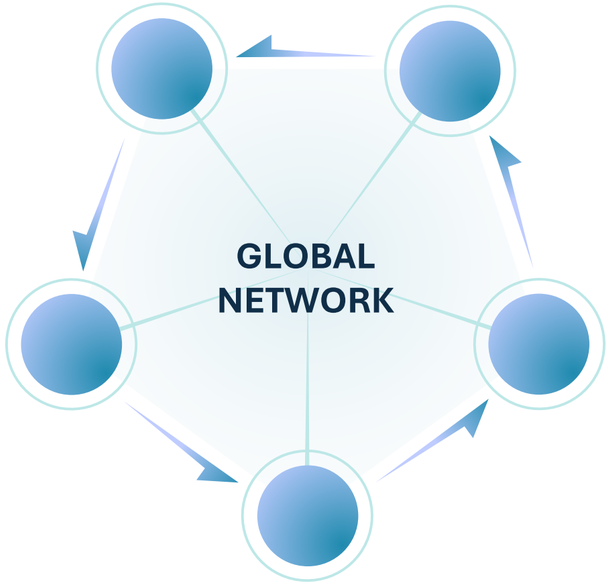

World Federation of Engineering Organizations (WFEO)

A global voice for engineering

Connecting institutions, disciplines and countries

National • Regional • International

UNESCO partnership

UN engagement

From engineering knowledge to societal impact

The future workforce cannot be developed in isolation

Professional organizations → **Universities & research** → **Industry & employers** → **Society & policy**

Across disciplines • Across institutions • Across borders

Three priorities for the systems workforce

Where professional engineering organizations can make a difference

01

CONNECT

Education + industry

Real challenges, multidisciplinary projects, early engagement

02

DEVELOP

Lifelong learning

Systems thinking, digital and AI literacy, leadership

03

INCLUDE

Global access to knowledge

Mentoring, knowledge exchange and capacity building

Turning a global network into action

International forums for exchange, partnership and the next generation

ROME | #WED2027

World Engineering Day for Sustainable Development (WED)

3–5 March 2027 • CNI and CNI Foundation

CAIRO | 2026 Executive Council Meeting

Engineering dialogue • Infrastructure

WFEO HACKATHON

Engaging the next generation

THE FUTURE OF ENGINEERING IS NOT ONLY ABOUT TECHNOLOGY.

It is about people, knowledge and cooperation.

No country should be left behind.

WFEO / FMOI
